

Species	Flight Time	Common?	Mostly Found	Status
Small White	Mar-Oct	Everywhere	Garden, Farms and Parks	Native
Large White	Apr-Sep	Everywhere	Garden, Farms and Parks	Native
Green Veined White	Mar-Oct	Everywhere	Garden, Farms and Parks	Native
Ringlet	Jun-Aug	Everywhere	Meadows and Dunes	Native
Meadow Brown	May-Oct	Everywhere	Meadows and Dunes	Native
Speckled Wood	Mar-Nov	Everywhere	Woodland and Hedgerows	Native
Peacock	All Year Round	Everywhere	Garden, Farms and Parks	Native
Small Tortoiseshell	All Year Round	Everywhere	Garden, Farms and Parks	Native
Painted Lady	Mar-Nov	Everywhere	Garden, Farms and Parks	Migrant
Red Admiral	All Year Round	Everywhere	Garden, Farms and Parks	Migrant
Common Blue	May-Oct	Locally Common	Meadows and Dunes	Native
Small Copper	Apr-Oct	Locally Common	Meadows and Dunes	Native
Small Heath	Apr-Oct	Locally Common	Meadows and Dunes	Native
Orange Tip	Apr-Jul	Everywhere	Meadows and Dunes	Native
Six-spot Burnet Moth	May-Sep	Locally Common	Meadows and Dunes	Native
Hummingbird Hawk-moth	Mar-Oct	Everywhere	Garden, Farms and Parks	Migrant
Cinnabar Moth	May-Aug	Everywhere	Meadows and Dunes	Native

Butterflies and Moths are found right across Northern Ireland, from the highest mountains to our coast, in our woods, our fields and our gardens. For more information go to www.butterfly-conservation.org

It is very easy to get recording and help your local biodiversity; tell us what you have seen and where you saw it!

To submit a record you need to tell us:

- What you saw
- When you saw it (date and time)
- Where you saw it (grid reference if you know)
- How many you saw
- Who you are (name and contacts)

You can find your location as a grid reference easily by visiting www.gridreference.ie and zooming in on the map.

Remember, your photographs can count as records too. If you find something and don't know what it is you can send us your photographs.

Please submit your records to your Biodiversity Officer, who you can contact through your local Council or click on

www.biodiversityni.com

For more information on recording in Northern Ireland, contact the Centre for Environmental Data and Recording (CEDaR) www.nmni.com/cedar
