# Pass it on

Give your unwanted items a new home

### Why should we choose to re-use?

We all have things in our home that we don't need or want any more. In the Fermanagh and Omagh District you can give items you no longer want a new home. They will be appreciated by someone and benefit your community.

Fermanagh and Omagh District Council's Re-Use Scheme aims to provide residents in the District with a more efficient waste service provision that provides economic, social and environmental benefits to your community.

#### **Re-using items**

- Reduces the amount of waste sent to landfill and associated environmental costs
- Reduces disposal costs saving money to local ratepayers
- Has social benefits, helping your local community especially those in need
- Saves money by reducing the amount spent on new items
