

Test your memory
 Are you as good as a squirrel?

Squirrels and jays are just two of the woodland animals that store food ready for winter.

They need to have a good memory to find them again! Could you survive as a squirrel?

Acorn hunt

Jay

Squirrel

1

Collect 5-10 acorns from the woodland floor, beneath an oak tree. Find a good place to store or bury them.

2

Go off for a walk...

3

...then come back and see if you can find them!

Find them?

For a bigger challenge, hide the acorns on one visit and try to find them on your next visit!

Did you know? Squirrels also eat berries, buds and fungi.

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
