Local Development Plan 2030

Addendum to Equality Screening Report
of the LDP Draft Plan Strategy

October 2020

Executive Summary

This document comprises an Addendum to the Draft Plan Strategy Equality Screening Report, October 2018, one of the plan documents prepared for Fermanagh and Omagh District Council's Local Development Plan (LDP) 2015 -2030.

All Representations received during the public consultation exercise held between 26 October and 21 December 2018, and the Council's response to them, are dealt with in the LDP Draft Plan Strategy Consultation Report. No representations were received in relation to the EqIA.

However, following consideration of the Representations received, the Council has recommended a number of 'proposed changes' to the published Draft Plan Strategy. These can be found in the Schedule of Proposed Changes, published alongside this document.

This report assesses these changes through the EqIA process comprising:

- Screening all the proposed changes to policies to identify whether there are any changes to the original screening process; and
- If necessary, to undertake an assessment of the changes that have not been screened out.

The findings are set out in this document in Table 1.

This addendum highlights if any of the proposed changes to the policies of the LDP Draft Plan Strategy have had any impact on the original screening assessment for the EqIA. Following consideration of the updated screening no implications on the overall EqIA of the Draft Plan Strategy were identified.

1. Introduction

- 1.1 The public consultation on the Draft Plan Strategy took place in October-December 2018 and as a result of that exercise the Council wishes to make certain changes to the LDP. All the changes proposed can be found in the 'Schedule of Proposed Changes' Report. The changes include some minor changes and some focussed changes as defined in DPPN 10 Submitting Development Plan Documents for Independent Examination. However, the majority of the changes do not fall within either of those categories but are changes which are considered to represent logical and rational amendments to a policy or policy clarification in response to representations received during the consultation period.
- 1.2 Those Proposed Changes relating to policies and related policy clarification require consideration in order to check if they alter the outcome of the screening process in the published EqIA Report. In particular, the screening process is to identify if any of the changes to policies are likely to have a negative impact on equality of opportunity and/or good relations on any Section 75 Group.
- 1.3 This document forms an Addendum to the October 2018 EqIA and identifies whether the outcomes of that report should be varied from those originally reported as a result of the LDP Proposed Changes. As such, this addendum should be read in conjunction with the EqIA which accompanied the published Draft Plan Strategy.
- 1.4 This Addendum includes the following:
 - Screening of the Proposed Changes to see if they 'materially' change (i.e. change what actions the LDP might inevitably lead to) what the EqIA assessed; and
 - Conclusions to clarify why a full EqIA is not required.

2. Statutory Requirements

- 2.1 Section 75 of the Northern Ireland Act 1998, requires all public authorities in carrying out their functions relating to Northern Ireland to have due regard to the need to promote equality of opportunity between :
 - persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
 - men and women generally;
 - persons with a disability and persons without; and
 - persons with dependants and persons without.
- 2.2 In addition, without prejudice to the above obligation, public authorities must, in carrying out their functions relating to Northern Ireland, have regard to the desirability of promoting good relations between persons of different religious belief, political opinion or racial group.

- 2.3 The Disability Discrimination (NI) Order 2006 introduced new duties requiring all public authorities in carrying out their functions relating to Northern Ireland, to have due regard to the need to –
- promote positive attitudes towards disabled people; and
 - encourage participation by disabled people in public life.
- 2.4 By screening the proposed changes to policies, helps us identify any planning issues relating to our Local Development Plan and planning policy contained within it that are likely to have an impact on equality of opportunity and/or good relations.

3. Screening of Proposed Changes

- 3.1 During the Draft Plan Strategy consultation exercise held between 26 October and 21 December 2018, a total of 322 individual Representations raising 659 issues, were made in relation to the DPS and associated assessments. No issues were raised in relation to the EqIA. A copy of all representations received and the Council's response to them are dealt with in the LDP Draft Plan Strategy Consultation Report.
- 3.2 As a result of analysis and consideration of the representations received, the Council has recommended a number of Proposed Changes to the published Draft Plan Strategy. A list of these can be found in the Schedule of Proposed Changes.
- 3.3 All the Proposed Changes to policies relate to changes to the wording of a policy to improve its understanding or, in some minor instances, to address soundness issues and ensure the policy is correctly aligned with the regional policy contained in the Strategic Planning Policy Statement for Northern Ireland (SPPS). Some relate to introductory text, administrative text or to appendices that do not have any relationship to Section 75 groups. However, all have been recorded in Table 1 to provide a record that they have been considered. The minor editing changes are all corrections or minor amendments in the interests of consistency and are not considered further in this addendum.
- 3.4 A 'screening' of all the Proposed Changes to policies was undertaken to identify whether any Section 75 groups had *likely potential* to be impacted (positively or negatively) upon by the amended policy and if there was a different outcome to the assumptions made in the original EqIA screening process. Table 1 refers to the change or changes reference number(s) that apply to Draft Policies or other parts of the draft Plan Strategy. The corresponding details of these changes can be found in the 'Schedule of Proposed Changes'.

4. Conclusions

- 4.1 The proposed amendments to the Draft Plan Strategy (dPS) do not introduce any new policies, rather they represent logical and rational amendments to ensure coherence and consistency.
- 4.2 The aims and influence of the policies are unaltered either by or due to the policy amendments; nor is the overall 'Vision' for the District as set out in the dPS, affected.
- 4.3 Three policies (HOU08, OSR03 and HE01) have been deleted from the dPS, due to them being adequately addressed by other policies within the plan. Their omission does not affect the EqIA of the dPS.
- 4.4 In reassessing the amended policies against the EqIA screening process, the outcomes are unchanged from that originally identified and considered. The conclusions therefore remain unchanged from the original EqIA in that it is anticipated that the Draft Plan Strategy will have no adverse impact with regards to equality and is likely to have a positive impact on all Section 75 groups, both directly and indirectly, by contributing to economic growth and social progress.
