## Details

Please give details of why you consider the Plan Strategy to be unsound having regard to the test(s) you have identified above. Please be as precise as possible.  
**PROTECTED ROUTES LDP 2030**

### Protected Routes

The protected route policy relates to protected roads network that traverse through the FODC area the road are identified by A5, A32, A4, A509 & A505 These roads have been designated for at least the past 30 years FODC has not assessed the impact that this restrictive policy has had on the rural communities that live on and near the protected routes especially regarding the lack of development opportunities & the restriction this policy has had on their Businesses farms and homes There has been no policies developed to address the many issues experienced by the rural communities in these areas . Depopulation in these areas is very common the Rural Population is not being sustained Rural schools and businesses are contracting or closing down

Therefore the LDP 2030 fails on soundness in this regard

*(Continue on a separate sheet if necessary)*

## Modifications

What, if any, modifications do you think should be made to the section, policy or proposal? What specific modifications do you think should be made in order to address your representation?

### Protected Routes

FODC has neglected to carry out a robust survey /study to study the issues faced by rural communities affected by area traversed by the existing protected routes An example of a hamlet affected is -Tummery /Lisdoon New accesses for infills and farm dwellings should be allowed where the correct Road Access standards are achieved A detailed survey should be undertaken to address issues raised
