Unsound

Soundness Test No:

P2 Has the council prepared its Preferred Options Paper and taken into account any representations made?

Plan Component

Part 2, Section 4.0 Economy

Relevant Policy, Paragraph, Appendix or Proposal Map

para 4.89, Draft Policy MIN04-Unconventional Hydrocarbon Extraction

Details

The definition of fracking needs to be more strictly defined to take into account the 625 responses sent in by the public in 2016, to the FODC preferred options paper. Draft Policy MIN04 [also page 127] states that the FODC 'will not permit exploitation of unconventional hydrocarbon extraction until it is proved that there would be no adverse effects on the environment or public health'. Proof that fracking is safe can not now ever become available as the huge and ever growing body of peer reviewed science compendium available at www.concernedhealthny.org shows that fracking is dangerous under all circumstances, no matter what level of regulation exists..

Modifications

I ask that the sentence on page 127 [policy clarification 4.89] of the draft FODC Local Development Plan Strategy that ends 'also known as hydraulic fracturing or fracking' should be replaced with: 'also known as hydraulic fracturing or fracking; which means the generation of mechanical fractures in rock below the surface by means of the physical process of pumping fluid at high pressure into the rock via a petroleum wellbore for the purpose of enhancing the flow of all hydrocarbons between the rock and the wellbore.'
