Clarification #7

Question: In regards to Site 3, Middleton Street, it is unclear as to whether the commission is for a 'bus shelter' (as stated on Appendix 2 - Map of Locations) or a 'shelter' as stated in the brief, which

due to the location given on the map, seems to refer to a sheltered passageway for pedestrians down the length of Middleton Street itself.

If the intention is for a bus shelter, do we assume the site is at the bottom of Middleton Street where it meets Water street, where there is an existing lay-by bus stop?

Answer: This should be a bus style shelter with a likely location to be the junction with Water Street.
